DACA-to-citizen on table

Trump links offer to \$25B for wall; plan faces bipartisan foes

By Gary Martin
Review-Journal Washington Bureau

WASHINGTON — President Donald Trump proposed an immigration plan Thursday that provides a path to citizenship for 1.8 million undocumented immigrants and seeks a \$25 billion trust fund for a border wall system and restrictions on legal immigration.

But the proposal met immediate resistance from Democrats who oppose cuts to legal immigration and from some conservative

Republicans who oppose citizenship offers to undocumented immigrants.

A senior administration official outlined the parameters of the plan late Thursday to reporters. The full proposal is expected to be officially sent to the Senate on Monday.

The president’s plan “represents a compromise that members of both parties can support,” the administration official said. The official said the offer was designed to garner the 60 votes needed to

Maysen Melton, a 16-year-old boy accused of raping classmates, is led out of the courtroom after his bail hearing Thursday at the Regional Justice Center.

‘Prolific sex offender’

Papers show Melton, accused of rape, was suspended at age 9

By David Ferrara
Las Vegas Review-Journal

Maysen Melton, accused of raping four high school classmates and sexually harassing others, had been disciplined for sexual deviancy as early as February 2011, when he was a 9-year-old student at Bracken

Elementary School, prosecutors said in court papers filed this week.

At a bail hearing Thursday, District Judge Jennifer Togliatti pointed to the history of allegations against the boy, now 16, and ordered him held on

Error told emergency crews to avoid UMC

At least two patients were diverted Oct. 1

By Jessie Bekker
©2018 Las Vegas Review-Journal

A Clark County dispatcher told emergency responders that University Medical Center was “completely out of beds” late Oct. 1, even though the hospital had plenty of capacity to help victims of the Strip mass shooting, records obtained by the Las Vegas Review-Journal show.

It took at least 15 minutes for the erroneous message to be corrected, but the ensuing confusion lasted past midnight, and at least two people were diverted to a hospital less-equipped to deal with traumatic injuries.

The error is the most significant known lapse in that night’s execution of the emergency plan that local first responders learn through extensive training.

The mix-up occurred after the hospital issued an “internal disaster” alert, meant to forewarn staff about an influx of patients and a potential shortage of supplies and staff, UMC spokeswoman Danita
